

RUM

The way it is supposed to be made,
where it is supposed to be made

Newport, Rhode Island has been the home of rum for over two centuries.. Once considered the rum capital of the world, it should be no surprise that one of today's finest rums, Thomas Tew Single Barrel Rum, is made right there.

The distillers at Newport Distilling take pride in their spirit and process. Unlike many of today's distillers that buy already distilled or aged spirit from other distillers, the crew at Newport Distilling doesn't take any shortcuts. They take the process from beginning (fermentation of the blackstrap molasses) all the way to the bottle. and are sure it shows when you taste their spirit.

Hard to believe? Well it's true. So true that the folks from the Discovery Channel saw fit to have an entire episode of their show, *Dirty Jobs with Mike Rowe*, dedicated to it. If you missed the show, visit us on Facebook or at www.thomastewrums.com to learn more about our authentic process or contact us directly at 401-849-5232.
